

# Introducing The New Village of Burr Ridge App!

**The Village of Burr Ridge**  
*"A Very Special Place"*

## Mobile App

This mobile app was designed to give you information about Burr Ridge at your fingertips, whatever your mobile device might be. It will provide you with quick, accessible, and updated information to help you navigate your way around Burr Ridge.

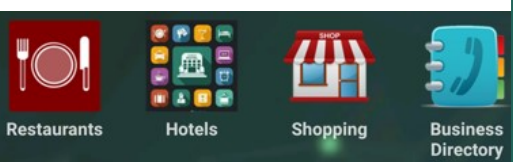

## Getting the App

The first step is to download the App - it's free - from either your Android or Apple device. You can do this by going to the appropriate App store for your device, entering "Village of Burr Ridge" in the search field, and the App will appear on your screen. Press the Install tab, and the App will install. Press open, and begin using your new App!

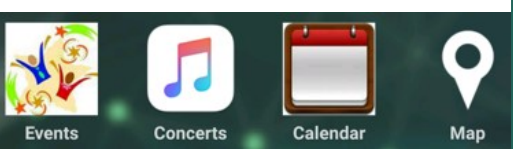

## How It Works

There are 20 different features - or tabs - broken down into 5 different categories of information: Businesses, Local Happenings, Public Entities, Services, and Social Media. From these tabs, you can get information on where to dine, shop, sleep, play, and work all around Burr Ridge. These tabs are directly linked to websites and informational sites that are constantly being updated. There is a tab for anything you'd like to do, and it's all here in Burr Ridge! Here's a snapshot of some the tabs:

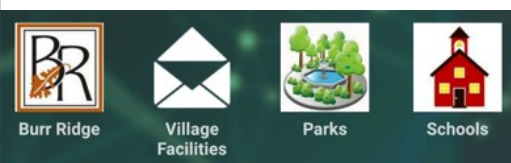

### Businesses

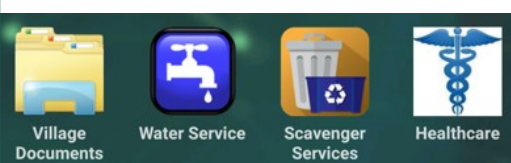

### Local Happenings

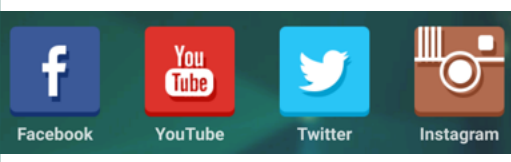

### Public Entities

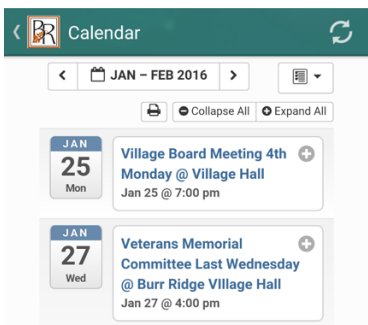

### Services

### Social Media

**Calendar** - The Calendar tab organizes what's going on within the Village by date for you, and you can select how you want it to appear.

## Push Notifications

Push notifications are updates recognized by the App, and sent out to you on your device. When something has changed on the app or been updated, you will be notified by a "ping" on your device, indicating that you should check it to see what's new. You must sign up to receive push notifications on the app to receive them.

VILLAGE OF  
**BURR RIDGE**  
A VERY SPECIAL PLACE

**This is a free App, available for both  
Apple and Android products.**

**Download the Burr Ridge App!**

Follow us on any of these Social Media  
sites with the search tag "BRVillage".
